

Are you a patient at Marine Lake & Estuary Medical Centre in West Kirby?

We are looking to compliment are newly formed PPG at Marine Lake & Estuary Practice to ensure all patient groups are represented.

We would particularly like to hear from young adult patients aged between 18 and 44 registered at the practice.

PPGs are about implementing real, positive change in their communities. Patients have long valued the relationship with their GP and Doctors Surgery.

However, the dynamics of this relationship have changed over recent years . Patients today rightly want more say in their own healthcare, they want to be better informed and expect to be treated as a whole person, not just as a condition or ailment.

PPGs have an increasingly important role to play in helping to give patients a say in the way services are delivered to best meet their needs, and the needs of the local community.

If you would like to become a member of the PPG or our focus groups, please get in touch with Lottie the PPG Chairperson on the email below.

Would you like to take part in the Patient Participant Group?
